

STREET 2025 UPDATE

QUICKLY FIND ALL
THE PARTS YOU NEED
ON OUR WEBSITE

PARTS EUROPE®

A Look At What's New For 2025

Here is the 2025 Parts Europe Street catalogue update! This catalogue highlights new parts and accessories available for street bike enthusiasts, and their machines.

Be sure to keep the 2024 Parts Europe Street catalogue. You can still order from it! This update catalogue is designed to supplement the main 2024 Street catalogue.

For tires, tools, cleaners, lubes and service items, see the 2025 Parts Europe/Drag Specialties Tire, Tools & Chemicals catalogue update, along with the 2024 Parts Europe/Drag Specialties Tire, Tools & Chemicals catalogue.

For riding gear, helmets and casual apparel, see the 2025 Parts Europe/ Drag Specialties Helmet & Apparel catalogue. We are still adding new products daily! Be sure to check partseurope.eu all year long to see what is new from Parts Europe.

Parts Europe – We support dealers, their customers and the sport!

All model designations and applications used herein are determined by the manufacturer as USA and/or European specific. Contact the individual manufacturer for additional international model information.

Table Of Contents

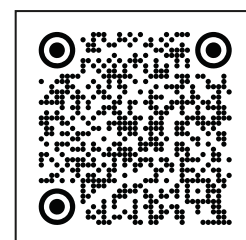

Exhaust	5-32	Sprockets	112-113
Luggage	33-51	Chains & Drive Belts	114-117
Covers & Security.	51	Wheels & Accessories	118-121
Windshields & Fairings	52-57	Brakes	122-126
Body & Frames.	58-67	Suspension	127-141
Seats & Sissy Bars	68	Engine	142-146

IMPORTANT INFORMATION RELATING TO MANUFACTURER'S WARRANTY, EMISSION CONTROL REGULATION AND NOISE REGULATION INFORMATION:

DISCLAIMER: There is no warranty on exhaust pipes and mufflers with regard to any discoloration. Discoloration (blueing) is caused by tuning characteristics, i.e. timing, carburetor, fuel injection/controller settings, etc., and is not caused by defective manufacturing. See the Tires, Tools and Chemicals catalog for products that will help prevent and remove blueing.

DISCLAIMER: Products shown may be designed, manufactured, intended and sold for closed circuit race use only and use of the same on public roads or lands may be a violation of local, state and/or federal/EU laws.

DISCLAIMER: A number of regions have exhaust noise laws. Exhaust products advertised might not be legal for sale or use on public roads or lands in such jurisdictions. Check applicable laws and regulations.

DISCLAIMER: Check your applicable laws and manufacturer's publication(s) and/or website(s) for manufacturer's warranty, maintenance, safety, mounting and any regulatory compliance/non-compliance information.

EVOLUTION LINE COMPLETE EXHAUST SYSTEMS

- The flagship of the Akrapović exhaust systems, used and tested by top factory teams in racing
- Each model is unique and dedicated to maximising engine performance while reducing overall weight for optimised handling of the whole motorcycle
- Significantly lighter compared to the stock exhaust system
- Headpipes/collector/link pipe are made of titanium
- Muffler sleeves constructed from titanium

- End caps constructed from titanium or carbon fiber
- Optional stainless Track day link pipe/collector with resonator lowers the noise levels for use on racetracks where lower noise levels are required (sold separately)
- See pages 6-8 of the 2024 Parts Europe Street catalog for the complete line of Akrapović Evolution exhaust systems

EVOLUTION LINE COMPLETE EXHAUST SYSTEMS continued on next page.

RACING LINE COMPLETE EXHAUST SYSTEMS

- A complete high-quality stainless steel exhaust system made with close attention to detail
- Unique design enables it to obtain the maximum output for each specific model of motorcycle while significantly reducing overall weight for top performance in everyday riding or even in the most challenging races
- Headpipes/collector/link pipe are made of stainless steel
- Muffler sleeves constructed from titanium or carbon fiber

- End caps constructed from titanium or carbon fiber
- Optional muffler brackets available separately
- Optional stainless Track day link pipe/collector with resonator lowers the noise levels for use on racetracks where lower noise levels are required (sold separately)
- See pages 9-12 of the 2024 Parts Europe Street catalog for the complete line of Akrapovic Racing exhaust systems

FITS MODEL	DESCRIPTION	APPROVALS	PART #
HONDA			
CB650R 24-25, CBR650R 24-25	4-into-1 header w/ titanium muffler and titanium end cap (does not fit w/ original under cowl accessory part installed)	-	1810-3199 ^{1,2}
	Mandatory fitting kit w/ extension harness for stock lambda cable; fits only on 2024 model years	-	1860-2473
CBR1000RR-R Fireblade/SP 24-25	4-into-1 header w/ titanium muffler and titanium end cap (ECU re-mapping is mandatory; carbon muffler bracket included if passenger pegs are removed)	-	1810-3216
	Optional stainless Track day link pipe/collector lowers the noise levels for use on racetracks where lower noise levels are required	-	1812-0592
	Optional carbon fiber heat shield	-	1860-2481
CRF1100L Africa Twin 20-25	2-into-1 header w/ titanium muffler and titanium end cap (ECU re-mapping is recommended; compatible w/ original Honda center stand, engine guard and pannier stays)	-	1810-3203 ¹
CRF1100L Africa Twin Adventure Sports 20-25	2-into-1 header w/ titanium muffler and titanium end cap (ECU re-mapping is recommended; compatible w/ original Honda center stand, engine guard and pannier stays)	-	1810-3204 ¹
KAWASAKI			
Ninja ZX-6R 23-24	Optional carbon muffler bracket for PART #1810-3167 (must order if passenger pegs are removed)	-	1861-1734

¹ When installing the Racing Line exhaust system on Euro5+ motorbikes (two lambda sensors), the engine check light will appear after identifying a deviation in the stock catalytic converter's parameters.

² Fits on models equipped with two lambda sensors and on CB650R E-Clutch.

MT-09 24-25	3-info-1 header w/ titanium muffler and carbon end cap (catalytic converter included within the system; compatible w/ side cases and central stand)	EU/ECE Type Approval	1811-4619
Tracer 9/GT/GT+ 21-24	3-info-1 header w/ titanium muffler and carbon end cap (catalytic converter included within the system; compatible w/ Yamaha hard cases and central stand)	EU/ECE Type Approval	1810-3189
XSR900/GP 22-25	3-info-1 header w/ titanium muffler and stainless end cap (black-coated muffler bracket and two heat shields included; catalytic converter included within the system; will not fit w/ Yamaha original saddlebags)	EU/ECE Type Approval	1810-3187

¹ When installing the Racing Line exhaust system on Euro5+ motorbikes (two lambda sensors), the engine check light will appear after identifying a deviation in the stock catalytic converter's parameters.

TRACK DAY SLIP-ON SERIES MUFFLER FOR HONDA CBR1000RR-R FIREBLADE/SP 24-25

- Specially developed for use on racetracks where lower noise levels are required
- Optional header available to improve torque and power, especially from the mid-range upwards (sold separately)
- Optional aluminium muffler bracket PART #1861-1496 or carbon fiber muffler bracket PART #1861-1495 must be ordered if passenger pegs are removed; sold separately on page 12 of the 2024 Parts Europe Street catalog
- See page 12 of the 2024 Parts Europe Street catalog for the complete line of Akrapovic Track Day slip-on mufflers

NOTE: When installing the optional header PART #1812-0591 on Euro 5+ bikes (models w/ two lambda sensors), then engine check light will appear after identifying a deviation in the stock catalytic converter parameters.

DESCRIPTION	PART #
Single titanium muffler w/ stainless steel link pipe and resonator	1811-4717
4-info-1 titanium headpipe (for maximum performance, throttle response and durability, ECU re-mapping is mandatory)	1812-0591

SLIP-ON SERIES MUFFLERS

- Slip-on mufflers represent the first step in the exhaust system tuning process
- Easy to install and offers a great balance between price and performance
- More power, more torque, less weight and the unique Akrapovic sound
- Muffler sleeves constructed from titanium or carbon fiber
- End caps constructed from titanium or carbon fiber
- Optional available stainless steel or titanium headers (sold separately) offer an upgrade to a full system when used with the Akrapovic slip-on muffler
- Optional carbon fiber or aluminum muffler brackets are available separately for some models
- Optional carbon fiber heat shields are available separately for some models
- See pages 13-22 of the 2024 Parts Europe Street catalog for the complete line of Akrapovic Slip-On mufflers

FITS MODEL	DESCRIPTION	APPROVALS	PART #
CFMOTO			
450SR/450NK 24-25	Single carbon muffler w/ carbon end cap (race)	-	1811-4709
	Optional aluminum muffler bracket (must order if passenger pegs are removed)	-	1861-1776
800NK 23-25	Single carbon muffler w/ titanium end cap and stainless link pipe	EU/ECE Type Approval	1811-4725
BMW			
F750GS 18-23, F850GS/Adventure 18-23, F800GS/F900GS Adventure 24-25	Single black titanium muffler w/ carbon end cap (will fit w/ side cases)	EU/ECE Type Approval	1811-4618
R 12 nineT 24-25, R 12 24-25	Dual black stainless mufflers w/ stainless end caps and titanium link pipe	EU/ECE Type Approval	1810-3196 ¹
	2-into-1 titanium header (also fits with BMW accessory Akrapovic silencer; re-mapping the ECU is recommended in order to prevent check engine light warning signal and to achieve optimized performance and throttle response)	-	1812-0582
R1300GS 23-25	2-into-1 titanium header (removes catalytic converter and includes pre-muffler; also fits with Akrapovic standard (first fit)/BMW accessory Akrapovic silencer)	-	1812-0587
	Optional carbon fiber heat shield to replace stock heat shield	-	1861-1766

¹ Installing the available optional headers invalidates the EU/ECE Type Approval.

GP CORSA SLIP-ONS

- CAD/CAM design for precise fit
- Technical stainless steel muffler straps and end caps developed for MotoGP
- Maximum horsepower boost across the rpm range (linear power)
- Stainless steel internal muffler construction
- A deeper race-tuned tone
- Removable sound insert for more aggressive tone
- Machine-specific tuning to work with stock fuel settings
- EVO models feature a Technopolymer end cap

- The geometrical development of the muffler is specific for each engine model, aimed to enhance the torque and maximum power, meeting the required parameters set by EU standards (97/24/EC of June 17, 1997)
- See page 44 of the 2024 Parts Europe Street catalog for the entire line of Leo Vince GP Corsa Slip-Ons

LINK PIPE KITS AND HEADPIPES

- Includes a resonator to reduce offensive exhaust tones and a plate for the exhaust valve to eliminate CEL on the dash (where applicable)
- Made of stainless steel AISI 304, TIG-welded
- Rig-tested and manually manufactured
- Can be fitted with the stock exhaust and the Leo Vince slip-on
- See page 47 of the 2024 Parts Europe Street catalog for the entire line of Leo Vince Link Pipe Kits and Headpipes

NOTE: When fitting this exhaust system it is advisable to optimize the carburetion by remapping the stock ECU unit or adopting an additional ECU unit.

FORCE EVO RACING FULL EXHAUST SYSTEMS

- High-flow, complete exhaust system that offers maximum power and torque gains through the entire powerband, while still meeting restrictive dB limits
- Mounting kit includes holder to fix silencer to the original rear frame
- Compatible with original fairings
- Compatible with original and special radiators

FITS MODEL	DESCRIPTION	PART #
BMW		
S1000RR 19-24 and M1000RR 20-24	Full titanium system with titanium collector plus Force EVO silencer	1810-3191
KAWASAKI		
ZX-4R/RR 23-24	Racing complete kit with Konix EVO: stainless steel manifolds and a titanium silencer	1810-3195

FORCE EVO 3/4 EXHAUST SYSTEM FOR KAWASAKI ZX-10R/RR 21-24

- Non-homologated racing version for maximum performance
- Titanium construction eliminates heavy catalyst, while a titanium muffler and carbon end cap further reduce weight
- Sharp and symmetric shape allow maximum airflow for increased power gains
- Weight approximately 1,8 kg (4 lbs) and has been dyno tested for maximum hp gains

- Sound tested to 113 dB
- Compatible with original collector
- For race use only

NOTE: Not compatible with passenger footpegs.

DESCRIPTION	PART #
Force EVO 3/4 exhaust system w/ titanium pipe and Force EVO silencer	1810-3192

FORCE SLIP-ON MUFFLERS

FOR BMW R1300GS 24

- Shape allows maximized volume and diameter
- Offer the best performance with a special aggressive design
- Each end cap is made of stainless steel with a Scotch-Brite™ finish
- Every end cap is 2D laser cut, hydraulic pressed with five different molds, then is 3D laser cut, making it extremely light, weighing only a few grams
- See page 53 of the 2024 Parts Europe Street catalog for the entire line of Spark Force Slip-on Mufflers

DESCRIPTION

Titanium Force slip-on muffler with and Force silencer with connecting pipe for lateral mounting

PART #

1811-4660

KONIX SLIP-ON MUFFLER

- Racing design, aggressive sound, improved performance and reduces the weight (~38% compared to the original system)
- dB killer has a special angle in order to flow gas and heat downward

DESCRIPTION

Konix slip-on muffler w/ silencer, includes stainless steel pipe for lateral mounting

PART #

1811-4666

GRID-O SLIP-ON MUFFLERS

- Improved performance compared to standard exhaust
- Aggressive sound and style
- Mufflers are TIG-welded, and 3D laser-cut using state-of-the art technology
- Connects to catalyzed collector

Q4 SERIES SLIP-ON MUFFLER

FOR KAWASAKI KLR 600/650/TENGAI 84-07

- Q4 series features advanced engineering to precisely locate baffles and chambers to absorb sound
- Less mass to enhance power-to-weight ratio
- Quiet power with minimal sacrifice for performance
- Developed over years of championship off-road racing
- Twin-stage core design for lower sound output and extended life of packing material
- Comes standard with spark arrestor
- See page 74 of the 2024 Parts Europe Street catalog for the entire line of Q4 Series slip-on mufflers

DESCRIPTION

Q4 Series slip-on muffler

PART

1811-2616

POWERCORE 4 SLIP-ON MUFFLER

FOR KAWASAKI KLR 650/TENGAI 08-18

- High-flow end cap boosts all-around performance
- Computer designed and dyno tested
- Enhanced sonic evacuation delivers a higher flow of exhaust gases, which increases power
- Stainless steel midpipe mates to the computer-designed rear can for lightweight durability
- Round perforated steel inner core makes for optimum flow, using high-flow technology
- FMF's exclusive cross-weave internal packing provides longevity and maximum sound dispersion
- Elliptical aluminum can offers strategic sizing for superior performance
- See page 74 of the 2024 Parts Europe Street catalog for the entire line of Powercore 4 slip-on mufflers

DESCRIPTION

Powercore 4 slip-on muffler

PART

1811-2614

POWERBOMB HEADER

FOR KAWASAKI KLR 650/TENGAI 08-18

- Utilize FMF's module precisely located at the initial stage of the header for specific applications
- Position of "Bomb" increases performance; horsepower is increased as much as 10%
- Act as "pre-muffler" helping to lower the decibel output
- The expansion and contraction of exhaust sonics through the system causes increased flow
- Available in stainless steel for strength combined with light weight
- See page 74 of the 2024 Parts Europe Street catalog for the entire line of Powerbomb Headers

DESCRIPTION

Stainless steel header

PART

1812-0207

PRO BLAZE SADDLEBAG SETS

- Lightweight and efficient aerodynamic design
- Constructed from durable UV-resistant 1680D ballistic nylon with water-resistant interior coating
- Side walls are made from dimensionally stable laminated EVA plastic
- Zippered volume expansion from 15 L to 20 L
- Include removable support arms that prevent contact with the rear tire
- A wide back strap attaches over the seat to connect the bags while providing additional support, stability and weight distribution
- Main pocket can be loaded from the top
- Reflective trim enhances visibility
- Solid carrying handle
- High saddlebag set's backstrap is attached higher on the seat to prevent bags from high-placed exhaust

- Sold in pairs
- Pairs of replacement saddlebags also available
- See page 113 of the 2024 Parts Europe Street catalog for the entire line of SW-Motech Pro Blaze Saddlebag sets

KEEN TANK BAG

- Mini tank bag with a total black, tone-on-tone stylish look
- Pre-formed upper shell fits almost any tank shape
- Upper elastic straps allow for extra storage capacity
- Attaches using universal strap system (one strap around triple tree stem, one strap under the seat)
- Straps feature quick-release clips for quick removal for re-fueling
- Pockets in the tank bag base allow the use of magnets for mounting on metal tanks (magnets available separately)
- Non-slip bottom helps keep the bag stable
- Measures approximately 19 cm L x 14 cm W x 5 cm H

DESCRIPTION

Keen tank bag

- Storage capacity approximately 1,5 L
- 100% polyester construction
- Black

PART

3502-0746

LEG BAGS

- Leg pouch bag for carrying essential items
- Fully adjustable leg and waist straps keep the bag secure, on or off the bike
- Storage capacity of 1 L (2,5 L when fully expanded)
- Measures approximately 14 cm W x 20 cm L x 4 cm H (9 cm H fully expanded)
- Pre-formed protective outer shell
- 100% polyester construction
- Black

EXFIL HELMET BAG

- Protect your lid with a soft fleece-lined interior and durable 1680D ballistic nylon exterior
- Ventilated panel encourages airflow

- Rubberized bottom
- Integrated hanging loop
- Dimensions: 26,7 cm W x 38 cm L x 30,5 cm H (10,5" x 15" x 12")

DESCRIPTION

EXFIL helmet bag

PART #

3514-0050

EXFIL-7 2.0 BAG

- MOLLE system on exterior allows for versatile configuration
- One main and three secondary pockets offer plenty of room for gear, maps, and other essentials
- Fully customizable for different applications and mounting locations, including frame's down tubes, above the headlight, on tall and mid-sized handlebars and, of course, on both sides of sissy bars
- Rugged, rust-free nylon zippers throughout
- UV-treated, 1680D polyester nylon construction
- Duraflex quick-release buckles with adjustable nylon straps for stowing a base layer or small bedroll
- External chassis panels are PVC backed for added water resistance
- Anti-rattle zipper pulls
- Zippered pockets in lid and back panel

- Hi-viz orange nylon interior makes spotting contents easier
- Interior volume holds seven 355 ml (12 U.S. fl oz) cans
- Main compartment dimensions: 28 cm x 14,5 cm x 12 cm (11" x 5,75" x 4,75")
- Large pocket dimensions: 25 cm x 14,5 cm w/ 20,5 cm opening (9,75" x 5,75" / 8")
- Small pocket dimensions: 14,5 cm x 11 cm w/ 11,5 cm opening (5,75" x 4,25" / 4,5")

DESCRIPTION

EXFIL-7 2.0 bag

FLARE™ WINDSHIELDS

FOR BMW R 18 AND R 18 TRANSCONTINENTAL 21-24

- Wind tunnel designed and tested, the "hips" provide added downforce for stability while the "flip" at the tip directs air up and over the rider to help eliminate swirling and buffeting
- Allows better airflow and enhanced sound quality
- Adds increased stability and handling over stock shields to the front of the motorcycle by generating downforce at speed
- Manufactured from Lexan® polycarbonate with FMR hard coating for outstanding impact strength
- Measures 37 cm H (14,5")
- Non-vented
- All styles install using OEM hardware

COLOR	PART #
Dark smoke	2310-0885

- See pages 267-268 of the 2024 Parts Europe Street catalog for additional Klock Werks Flare™ Windshields

NOTE: Klock Werks typically recommends selecting a Flare™ Windshield size that allows you to comfortably look over it while seated in your natural riding position.

The Klock Werks Flare™ Windshields are protected under United States Patents: D632235S, D586274S, D586275S, D633017S, D626046S, D633018S. And also under International Patents: 324093, 324094, 325192.

ACCESSORIES

DESCRIPTION	PART #
Replacement frame caps	0505-2494

FRAME SLIDER SETS

- Offers maximum protection for important motorcycle parts
- Constructed from abrasion-resistant plastic
- Slider pads are made with lightweight PA6-MO that offers high tensile strength and significant impact- and UV-resistance
- Worn pads can be easily swapped out; replacement pads sold separately
- Simple installation
- Include two sliders, mounting hardware and instructions
- See page 281 of the 2024 Parts Europe Street catalog for the complete line of SW-Motech frame sliders

ADV PLATES

- Made of high density polyethylene (HDPE) plastic 8 mm thick
- Protects the engine block and the important parts of the bike
- 30% to 40% lighter than alloy plates, the AXP sump guard erases resonance noise from rock impacts, does not generate any vibration and does not undergo deformations, which will make the maintenance easier than with an alloy option
- The fixation system is designed to be robust and lightweight
- Unlike painted alloy plates, the color goes all the way through the skid plate

AIRHAWK 2 SEAT PADS

- Unique inflatable, multiple-cell design for the ultimate in comfortable seating and vibration absorption
- Made from polyurethane and features a breathable, stretchable outer cover and a nonskid urethane base to protect your seat
- Features an open-mesh side panel to allow air circulation through individual air cells, creating extra ventilation to reduce heat buildup
- Shape Fitting Technology eliminates painful pressure points and promotes consistent blood flow for a longer, more comfortable ride
- Automatically adjusts to the shape of the rider
- Raises ride-height only slightly
- Securely fastens via double-strap system running under seat or pillion
- Will not scratch or disfigure existing seat or pillion
- Valve for inflation, adjustment and deflation
- See page 407 of the 2024 Parts Europe Street catalog for the entire line of Airhawk 2 Seat Pads

DESCRIPTION	PART #	DESCRIPTION	PART #
Pillion w/ mesh; 28 cm L x 23 cm W (11" x 9")	0807-0226	Medium; 35,5 cm L x 35,5 cm W (14" x 14")	0807-0228
Small w/ mesh; 45,5 cm L x 30,5 cm W (18" x 12")	0807-0227		

GRANDE BACKRESTS

- 23% larger than Show Chrome's best-selling predecessor
- Hand-stitched marine grade vinyl
- Styled specifically to match OEM seat design while providing a sleek, seamless look
- With a larger area for superior support, the backrest caters to riders of all riding styles
- Retains Show Chrome's Smart Mount™ quick detach system for effortless removal and attachment
- Includes 25 mm (1") of vertical and 76 mm (3") of horizontal pad adjustment
- Dimensions: 32 cm x 20,5 cm x 51 mm (12.5" x 8" x 2")
- See page 411 of the 2024 Parts Europe Street catalog for the entire line of Show Chrome Grande Backrests

STEERING STEM BEARINGS

- Designed as a drop-in replacement to upgrade OEM ball-type bearings to taper bearings (where ball-type bearings are used by the OEM)
- Designed as a replacement taper bearing seat (where taper bearings are original equipment)
- Kits come complete with both upper and lower taper bearing cups and cones and seals (both top and bottom seals are included in most kits)

- Tapered roller bearings decrease maintenance along with less wear and longer life
- See pages 493-496 of the 2024 Parts Europe Street catalog for All Balls' full line of steering stem bearings

- Meticulously honed from premium grade aluminum

DESCRIPTION	PART #
Lever upgrade kit	0610-1877

FEATHERLIGHT CONTROL CABLES

- Clutch and throttle cables made to Venhill's high-quality Featherlight specifications
- Marine-grade stainless steel inner wire that runs through a PTFE liner
- Reduced friction provides a light action, easing pressure on the hand, especially in stop/start traffic and during long rides
- PTFE lining removes the need for lubrication
- "Bird-cage" process is applied to inner wire, allowing solder to penetrate the weave of the cable and making the bond with the nipple much stronger
- Available in standard Featherlight or braided style
- Throttle cables sold in push/pull pairs; clutch cables sold each
- See pages 552-555 of the 2024 Parts Europe Street catalog for the Venhill's full line of Featherlite control cables

mo.view SPORT MIRRORS

- CNC machined from solid aluminum with stainless steel screws and glass-free mirror
- Weightless design features convex mirror with no edge or frame
- Can be mounted on left or right side
- Mirror is resistant to corrosion, oxidation and scratching; approx. 4,5 mm thick
- Flip mirror allows for manipulation of the mirror at 45° intervals for navigating tight spaces
- mo.view 130 includes fixed mounting arm at 90° relation to the handlebar
- mo.view 150 and 180 include M10 threads and three different mounting screws

HANDLEBAR END MIRRORS

- To ensure optimal visibility of the traffic, mirror offers the flexibility of dual adjustable positions that can be continuously adjusted
- Plug-and-play design, mirrors can be easily mounted on your motorcycle and adjusted to your personal, ergonomic needs
- Features a universal clamp, the mirror is suitable for most models and offers simple and secure attachment
- Delicate look ensures that the mirror blends seamlessly into the overall design of the vehicle without being obtrusive
- Simple and space-saving installation directly on the handlebar end, for optimal visibility without impairment

DESCRIPTION	BLACK PART #	BLACK/MATTE PART #
Stratos	0640-1785	0640-1786

- Offers an optimal balance between weight and strength, resulting in improved performance and longevity
- Made of high-strength aluminum, a material known for its exceptional strength, durability and lightness
- Can be used on either the left or right side
- Mirror thickness - 6 mm
- Mirror weight - 600 g
- Symmetrical
- Sold each

SPORT MIRROR SETS

- Four different adjustment possibilities for best possible alignment
- Modern and flat edge design
- Partial areas and functional surfaces milled
- Stepless rotation and inclination of the mirror arm
- Length of the mirror arm continuously adjustable in the range of 30 mm
- Mounting on existing mirror connection
- High version is elevated with spacer bushing on the mirror mount
- Short mirror arm length: 152 mm
- Long mirror arm length: 182 mm
- Universal application, order based on bolt size, thread pitch, and thread direction
- See the Parts Europe website at www.partseurope.eu for individual applications
- Sold in pairs

RCT10GT REARSETS

- 12 adjustable settings
 - 22 mm adjusting diameter
 - Rise adjustability
 - Zero play two rows of ball bearings shift and brake levers
 - Reverse shifting possible
 - 10 mm wider than standard rearset to provide more comfort and avoid exhaust contact
- Fit Termignoni exhaust systems
 - Extreme resistance against abrasive wear and stone chipping due to hardened surface
 - CNC machined from solid, high-strength and rigid aircraft-aluminum
 - Stainless steel bolts
 - See page 612 of the 2024 Parts Europe Street catalog for the complete line of Gilles Tooling RCT10GT Rearsets

VCR38GT REARSETS

- Super high-grade 7075 aluminium
 - Perfect combination of durability, strength and weight
 - Continuously adjustable rearsets
 - Multiple adjustment possibilities: footrest, shift travel, foot length
 - Brake lever positioning by eccentric adjuster
 - Precise positioning by graded-scale
 - Fixing of the optimum position with a central clamping screw
 - No play, double ball-bearing gear and brake lever
 - Standard and reverse shifting possible
- Optimized ergonomics by use of innovative rolling toe piece on gear lever
 - Rolling toe piece enables less effort when shifting gears
 - Available in black anodized
 - Integrated brake light microswitch
 - See page 613 of the 2024 Parts Europe Street catalog for the complete line of Gilles Tooling VCR38GT Rearsets

MUE2 REARSETS

- Futuristic design combines high quality with simplified footpeg adjustability
- Footpeg positions as well as brake and gear levers can be adjusted to rider preference
- Fast and easily selectable footpeg positioning is done by a combination of a push and rotatable setting at only one point (five positions through pushing and four positions by rotating)
- Conversion to reverse GP shifting style works through the simple swapping of the shift rod position
- Brake and shift levers come with double ball bearings for perfect free of play function of the levers

SHIFTHOLDER KIT
FOR KAWASAKI ZX-4R 23-25

- Helps to eliminate gear shift problems
 - If the gearshaft stands too far out of the gear box, it bends elastically when shifting hard or quick, which is the reason for imprecise gear shifting
 - Stabilizes the gear shaft and eliminates vague shifting
 - Brass bushing and needle bearing
 - Hard anodized titanium color
- Sold each
 - See pages 615-616 of the 2024 Parts Europe Street catalog for the complete line of Gilles Tooling Shiftholder Kits

DESCRIPTION	PART #
Shiftholder kit	1602-1649

ION FOOTREST KITS

- Easily mounted on original footrest mount
- Made from high-quality, corrosion-resistant cast stainless steel
- Removable rubber top surface
- Installs at original height or 15 mm lower
- Profiled, anti-slip surface texture
- Large contact surface
- Includes two footrests, two hinge adapters and mounting hardware
- Footrests only also available
- ABE approved
- See page 618 of the 2024 Parts Europe Street catalog for the entire line of SW-Motech Ion Footrest Kits

ADJUSTABLE SERRATED FOOTPEGS FOR VICTORY OCTANE 16-17 (FRONT)

- Fully CNC machined from solid 6061-T6 bar
- Super strong, yet lightweight two-piece construction
- Wider foot surface for a comfortable ride
- Serrated surface provides a good bite to the bottom of your shoe
- Full 360° footpeg rotation makes these footpegs perfect for any application

- Pitch adjustment screw always keeps them in a good riding position
- Black or clear anodized finish
- For additional Joker Machine Adjustable Serrated Footpegs, see page 628 of the 2024 Parts Europe Street catalog

DESCRIPTION	PART #
HEEL: 4,1 CM L X 98 MM W X 21 MM T (4 ³ / ₁₆ " X 3 ⁷ / ₈ " X 1 ³ / ₁₆ ")

1620-2690 Tech-X Enduro

PRO-X AND TECH-X FOOTPEGS

- Notches dynamically adapt to the weight shift, by being able to move forwards or backwards and are accompanied by an intelligent damping system.
- Unique serrated structure ensures reliable slip protection and allows unrestricted concentration on the road
- Offer an unparalleled driving experience by minimizing vibrations and adapting perfectly to the respective foot movements
- Innovative rubber bearing between the tread and the joint means basic vibrations are absorbed and shocks on uneven terrain are mitigated

SAFETY FIRST

Be seen, be heard, stay safe. It's what we do, it's why we created Denali. Life on two wheels (and four) is dangerous – which is why our products are created and engineered to help you push your limits without sacrificing your safety.

OE INTEGRATION

We offer more plug-and-play wiring solutions and vehicle-specific light and horn mounts than any other brand, and we don't stop there. Our CANsmart™ technology allows us to read vehicle data in real time to deliver a seamless aftermarket experience that doesn't just meet OE standards but exceeds them.

UNPARALLED PERFORMANCE

Our quest to develop ultra compact lighting for power-sports applications forced us outside the status quo and resulted in our proprietary construction and optic design that enables us to outperform competitors lights twice our size.

MODULAR BY DESIGN

Our TriOptic™ interchangeable lens system, DRL visibility line, and T3 switchback turn signal line are just a few examples of how our modular design philosophy can deliver infinitely more solutions for any vehicle type from a simple set of well thought out components.

INTELLIGENT LIGHTING CONTROL

Say goodbye to old-school ON/OFF only. Our DataDim™ enabled light pods paired with our smart lighting controllers give you unparalleled control over your electronics and unlock smart features and settings that automatically adapt auxiliary lighting to your vehicle and your environment.

DURABILITY DNA

Designed for NASA, durability tested in the mines in South Africa, and proven on the washboard highways in Alaska. Our high-stakes commercial and industrial customers demand nothing short of indestructible when used 24/7 in the most extreme environments on earth.

D14 DESTROYER HEADLIGHTS

- Complete plug-n-play headlight upgrade kit
- Easy adjustable design allows headlight adjustment on-the-fly without taking the bike apart
- Includes everything you need for easy installation
- 25800 raw lumens for Road Glide and universal kits
- 12900 raw lumens for Street Glide kit
- CISPR25 ensures no interference with radios or controllers
- IP68 and 69K waterproof, submersible and high-pressure spray

SNAP-ON X-LENS FOR D14 DESTROYER HEADLIGHTS

- Makes bike significantly more visible to other motorists increasing your safety on the road
- Snap the modular X-Lens on to Destroyer headlight
- Available in amber, yellow or clear
- Sold each

WHAT TO ORDER

CANSMART™ CONTROLLERS AND ACCESSORIES

- The CANsmart™ Controller is an advanced accessory management system
- It allows for plug-and-play installation and provides integrated control of up to four accessories, enabling customizable settings that can be managed directly from the motorcycle's hand controls
- Control of auxiliary lights, horns, and brake lights with various customizable settings
- High/Low sync for auxiliary lights

DIALDIM™ LIGHTING CONTROLLER

- This controller allows you to manage two sets of lights independently with a single, intuitive interface
- The DialDim™ monitors your battery health, displaying voltage status on startup and implementing a low-voltage cutoff to prevent you from being stranded
- Designed for easy installation; comes with a 22 mm (7/8") handlebar mount, making it a perfect fit for most motorcycles

DESCRIPTION	PART #

66" extension splitter cable	2040-3318
Replacement DialDim trigger wire harness	2040-3320

DATADIM™ DUAL INTENSITY CONTROLLER FOR DRIVING LIGHT HARNESS

- The DataDim™ Dual-Intensity Controller enables Denali driving lights to switch between half and full intensity with your vehicle's original high beam switch
- Simply plug this controller into the end of the harness included with our light kits to enable dual intensity functionality
- All Denali 2.0 light pods are equipped with a dedicated 3rd-wire dimming circuit for use of an external signal to reliably control the intensity of the LED chip at the source

NOTE: Vehicles equipped with LED headlights may utilize a ground switched circuit, which will not trigger the DataDim's function with the factory high beam controls. Vehicles with ground switched headlights will require the Denali 2.0 DrySeal™ Hi-Low-Off Waterproof Switch (PART #2040-3323) in addition to the DataDim to toggle between high beam and low beam.

T3 ULTRA-VIZ 4-IN-1 SAFETY AND VISIBILITY LIGHT KIT

- Positions T3 Switch-Back signal pods on handguards facing towards the roadway
- Creates 360 degree dual-color visibility and safety lighting experience
- Rock light - Casts bright white light around the vehicle to see trail obstacles at night
- Puddle light - White light doubles as scene lighting allowing for safe parking and dismounting at night

- Plug-and-play connection to BMW, KTM, Harley-Davidson®, Honda, Triumph, and Husqvarna motorcycles via CANsmart Accessory Manager
- Includes both 3M™ VHB double-stick tape and bolt-on mounting options (will mount to any flat vertical surface)

T3 MODULAR SWITCHBACK SIGNAL PODS

- The T3 is a unique and innovative approach to the common turn signal
- Blends white visibility lighting, red brake lighting and amber turn signal lighting into one modular system
- The front T3 turn signal pods feature super bright white running lights that switch to amber when your turn signal is activated
- The rear T3 signal pods feature super bright red LEDs for run and brake functionality that also switch to amber when your turn signal is activated
- Use the mounting brackets to easily install on your bike
- Sold in pairs

CANSMART CONTROL SWITCHES

- DrySeal™ ON/OFF waterproof switch can handle a load up to 15A and is ideal for controlling many different accessories such as auxiliary lighting
- In addition to molded silicone gasket seals, we use a unique DrySeal construction technique that encases the wires in a potted cavity as they enter the housing
- Ensures our housing is 100% watertight even when submerged underwater with the wires cut and connector removed
- Includes both 7/8" and 1" handlebar switch mounting bands, as well as an adhesive pad for surface mounting
- For additional mounting options, use (PART #2050-0531) to mount to a motorcycle's clutch or brake perches
- (PART #2040-3322) is an ON/OFF switch while (PART #2040-3323) is a Hi/Low/OFF switch, and (PART #2040-3324) eliminates the need for a switch and will power accessories with the start of the ignition

DESCRIPTION	PART #	DESCRIPTION	PART #	DESCRIPTION	PART #

EURO 5 CANSMART PASS-THROUGH

- Use the EURO 5 CANbus pass-through if you want to add an additional accessory when you already have a CANsmart™ controller installed
- This adapter provides the additional connector that is needed to install a fuel management system or an additional CANsmart

DESCRIPTION	PART #
EURO 5 CANbus pass-through	2040-3406

DENALI WIRING HARNESS KITS

- Denali wiring harness kits features high-quality waterproof components and is designed to power two Denali LED light pods
- Features low profile, water tight connectors and high quality molded wire to ensure moisture is kept out of the system
- The harness includes a completely sealed, waterproof switch that was engineered from the ground up to withstand harsh conditions on powersports vehicles

DESCRIPTION	PART #
Wiring harness for T3 Switchback signals with ON/OFF switch	2040-3328
Wiring harness 30" extensions for T3 Switchback signal	2040-3329
Wiring harness for Denali 2.0 LED light pods with DrySeal™ ON/OFF waterproof illuminated switch	2040-3392

NOTE: This is a universal fit item. It is designed to fit many vehicles. Universal products may require a vehicle-specific fit kit (sold separately) or other modifications for installation, universal products are not guaranteed to fit every vehicle.

DESCRIPTION	PART #
3-pin harness 24" Extension	2040-3393
Wiring harness for Denali 2.0 LED light pods with standard ON/OFF switch	2040-3394
Wiring harness for Denali DRL light pods with Hi/Low/Off Switch	2050-0529

Y-SPLITTERS FOR DRIVING LIGHT HARNESS

- This Y-Splitter powers two sets of Denali 2.0 LED Lights from one harness
- Plugs into the end of the Denali 3-pin Harnesses
- Sold in pairs

DESCRIPTION	PART #
Y-splitters for light harness	2040-3325

TRIGGER WIZARD

- Universal high beam trigger for ground-switched LED headlights
- Wiring adapter that converts a ground-switched vehicle high beam wire to a traditional high beam wire that outputs 12V when you turn on your high beam
- This adapter is required if you want to output a 12V high beam signal that will allow Denali lights to change intensity with your factory high beam switch

DESCRIPTION	PART #
Trigger Wizard	2040-3332

SWITCHED POWER WIRING ADAPTER FOR DUCATI DESERTX/DESERTX RALLY 23-24

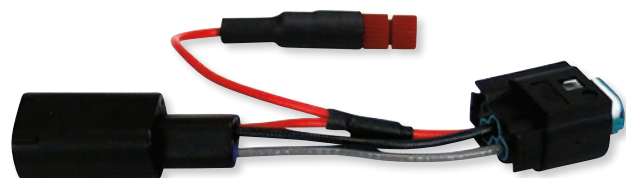

- This wiring adapter provides plug-and-play access to the switched power accessory circuit on the Ducati DesertX
- Use this adapter to connect the trigger wire from Denali driving lights harness, or to power DRL and other accessories that need switched power
- Plug in this adapter to create a clean 12V accessory trigger wire that will turn ON/OFF with the vehicle ignition

DESCRIPTION	PART #
Switched power wiring adapter	2040-3340

SWITCHED POWER ADAPTER

- This switched power adapter connects to your BMW's GPS power connector (on bikes with Nav preparation)
- Provides a CANbus safe, switched 12V power source for triggering a relay to power Denali lights, PowerHubs or other electronic accessories
- Simple plug-and-play installation; no cutting, tapping, or soldering necessary
- Will not void manufacturer warranty

NOTE: The Denali switched power adapter is intended to trigger a relay (sold separately) and is not intended to directly power an electrical accessory. Powering accessories directly from this adapter could overload the circuit and trigger the CANbus to cut power to the circuit until the overload is removed.

MODEL 93 90 MM LED HEADLIGHT

- Powerful, yet compact direct replacement headlight for the standard 90 mm OD headlight
- This headlight offers both high and low beam functions, ensuring excellent visibility in all driving conditions
- Includes daytime running light (DRL), front position, and turn signal functions, enhancing safety
- Operating temperature: -40 °C to 65 °C (-40 °F to 149 °F)
- With a lumen output of 2650 lumens for high beam and 1750 lumens for low beam

- Black aluminum housing and polycarbonate lens ensure durability and resistance to harsh environments
- Features a clear lens

Kellermann
high quality products made in germany

Jetstream® DF LED SEQUENTIAL LIGHTING INDICATOR 3 IN 1

- No other motorcycle indicator with sequential lighting and ECE approval gets even close, the brightness of the Kellermann Jetstream® is unmatched
- The Kellermann Jetstream DF LED sequential lighting indicator 3 in 1 is probably the most spectacular motorcycle indicator ever build;
- In the 3 in1 version the equally strong rear and brake lights are added, the well-proven Atto® technology is placed in the jet engine channel.
- 32 MHz real time micro processor controlled
- Silent-Current, advanced Power Saving algorithm
- High measure of visibility across a wide angle range

- Longlife Protection Guard®
- Suitable for 12VDC applications
- Flow-optimized metal housing, high quality manufacturing
- M8 x 20 mm thread
- High-quality vibration-absorbing bearing
- Global design protection
- Sold in pairs

DESCRIPTION	PART #
Clear	2020-2211

Kellermann

I.NEX CONVERSION SYSTEM - 12V

- The universal electronic solution for motorcycle lights such as: converting indicators, tail/brake lights, and position lights
- Correct flashing frequency
- No error messages in the cockpit
- No disruptive quiescent currents
- Installation of indicators with higher power consumption (watts) than original
- Installation on motorcycles with minus-switched indicators

- Installation on motorcycles with current-controlled indicators
- Installation of indicators with lower power consumption (watts) than original

DESCRIPTION	PART #

IGNITION
PARTS

SPARK PLUG

- Superior construction for serious power
- NGK makes plugs for almost every application and riding style
- Versatile plugs with wide operating heat ranges prevent fouling from running too cool and preignition from running too hot
- Feature high alumina ceramics for improved heat dissipation and electrical insulation, deep-seated copper core for a wider heat range and a nickel alloy tip for longer life
- See pages 833-834 of the 2024 Parts Europe Street catalog for the complete line of NGK Spark Plugs

STANDARD PLUG

PART #	NGK PLUG #	THREAD	REACH
2103-0581	MR9C-9N	10 mm	19 mm (3/4")

IGNITION CABLE

- Reduced resistance from the lead ultimately means a stronger spark
- Racing spark plug lead including Racing spark plug
- The spark plug seals very well thanks to its softer washer
- Fitting requires that the old spark plug lead be unscrewed and the new one screwed-in in its place
- This silicone lead can be installed very easily and is resistant to heat and fuel

LITHIUM-ION BATTERY-COMPATIBLE REGULATOR/RECTIFIERS

- Designed with the correct voltage set point
- The voltage set point is 14V +/- 0,2
- Ballistic Performance Batteries are recommended; for all other manufacturers of Lithium-Ion Batteries please contact the manufacturer of the battery to ensure our product set point is compatible with their battery

- See pages 887-888 of the 2024 Parts Europe Street catalog for the complete line of Rick's Motorsport Lithium-Ion Battery-Compatible Regulator/Rectifiers

NOTE: Not for use with standard lead acid batteries.

LITHIUM-ION FRIENDLY CHARGING KIT FOR SUZUKI GSX-R600/750 06-09

- Rick's Motorsport original design
- Includes both a stator and a lithium-ion friendly rectifier-regulator
- Will put out approximately 150W and power a 55W headlight if the bike's rotor has not been compromised
- Supplies constant power to the bike's battery
- See page 889 of the 2024 Parts Europe Street catalog for the complete line of Rick's Motorsport Lithium-Ion Friendly Charging Kits

NOTE: This kit is not for use with standard lead acid batteries. The voltage point is set to 14V +/- 2. Please contact the manufacturer of your lithium-ion battery to ensure the product has the correct set point.

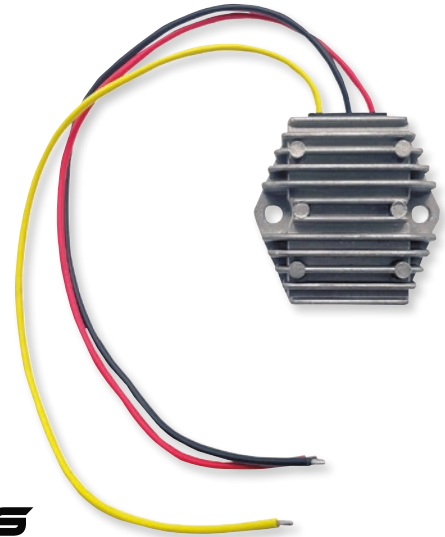

DESCRIPTION	PART #
Lithium-ion friendly charging kit	2112-1739

DC CONVERSION UNIT

- Allows older vehicles to run modern LED lights and any 12V accessories
- Self-contained regulator, rectifier and capacitor
- Easy to install

DESCRIPTION	PART #
DC conversion unit	2120-1396

HIGH-OUTPUT CHARGING KIT FOR SUZUKI GSX-R 600/750 06-09

- Features Rick's original redesign: a single-phase, full-wave system
- Includes a modern solid-state rectifier/regulator and a stator
- Puts out 25% more power than the stock system and will support a 55W headlight
- Also supplies constant power to the bike's battery
- Unlike the stock set-up, the bike will charge with or without the headlights being on because of the higher voltage produced by the new system
- Instructions included
- See page 889 of the 2024 Parts Europe Street catalog for the complete line of Rick's Motorsport High-Output Charging Kits

DESCRIPTION	PART #

RX-4 MULTI-FUNCTION SPEEDOMETER/TACHOMETER FOR SUZUKI GSX1300R HAYABUSA 08-20

- 12V, plug-n-play multi-function meter has backlight colors that include blue, green, orange and white
- Features speed, odometer, tripmeter, hour meter, voltage, clock and stopwatch as well as 6 indicator lights
- Displays range 0 to 362 km/h (0 to 225 mph)
- Effective temperature range: -20 to 85 °C (-4 to 185 °F)
- Displays ambient temperature to allow rider to monitor conditions and dress properly for the ride
- Bluetooth® capable for both iOS and Android
- No additional mounting bracket required
- Dimensions: 17 cm L x 4,3 cm W x 5,7 cm H (7,7" x 1,7" x 2,25")
- See page 908 of the 2024 Parts Europe Street catalog for the complete line of Koso RX-4 Multi-Function Speedometers/Tachometers

SOUNDBOMB™ AIR HORNS

- The Denali SoundBomb™ was designed for those who want to be heard, but still want to maintain a stylish look
- The SoundBomb is 4 times louder than a standard motorcycle horn and twice as loud as a standard car horn
- The split horn features a 48" heat resistant air hose that connects the two halves allowing you to mount them in an entirely different location on your bike without sacrificing any sound output
- Power draw: 20A (5A for Mini air horn)

JT SPROCKETS

- Computer-designed to achieve ultimate strength at minimum weight
- JT combines leading-edge technology with top materials to produce the ultimate quality sprocket range with unbeatable value
- Every sprocket meets or exceeds the highest possible quality standards
- Sprockets are heat-treated and beadblasted to reduce material surface tension
- Front sprockets made with top-quality SCM420 chromoly steel alloy
- Steel rear sprockets made with top-quality Japanese C49/C50 high carbon steel
- Aluminum rear sprockets are made with high-strength Austrian 7075-T6 anodized aluminum
- JT aluminum sprockets are about 30% lighter than a comparable steel equivalent, which reduces un-sprung rotating weight and improves performance
- Lightweight front sprockets available for some applications
- See pages 941-986 of the 2024 Parts Europe Street catalog for the entire line of JT Sprockets

RUBBER CUSHIONED FRONT SPROCKETS "RB"

- Used by the major Japanese motorcycle manufacturers since early 1990's to dampen the chain impact on the teeth of the front sprocket
- These same sprockets are now available to the aftermarket
- Quality, design and OEM proven technology are the same as used for what is supplied to the motorcycle manufacturers

INDUCTION HARDENED BLACK ZINC FINISH REAR SPROCKETS "BK"

- Made from C45 high-carbon steel
- Teeth are heat-induction hardened to 38-50 HRC

RACELITE ALUMINUM REAR SPROCKETS

- JT sprockets is proud to introduce the new RaceLife range of anodized 7075-T6 aluminum sprockets
- Available in hard wearing color options, see fitment section for details

NOTE: When installing sprockets which differ from OEM sizes, check for proper clearances before operating.

NOTE: For applications please use our Chain Kit Wizard tool at <http://www.partseurope.eu>.

XRE (XW-RING) LIGHTWEIGHT HIGH PERFORMANCE CHAIN

- Ideal for OE replacement of mid-size motorcycle
- Lightweight and durable chain provides quick and smooth acceleration
- Designed with cutting edge technology from various on road and offroad racing
- RK's original double-X-shaped "XW-Ring" seal provides exceptionally long chain wear-life
- 428XRE tensile strength of 6.066 lbs and maximum of 400 cc
- 520XRE tensile strength of 8.200 lbs and maximum of 800 cc
- 525XRE tensile strength of 9.400 lbs and maximum of 1.000 cc
- 530XRE tensile strength of 9.900 lbs and maximum of 1.400 cc

Z-Ring "Spring effect"

Z-RING SERIES

The new generation Z-ring seals featuring a special-designed conical shape on their inner side, patented since 2003, represents the evolution of previous X-ring and Z-ring designs. The Z-ring flexes when assembled, creating a spring effect that guarantees the seal will not decrease over time. The special S-ring section provides enhanced chain flexibility. The conical section enhances the assembling on the bushing. The lubricant trapped between the plates and the lobes of the Z-ring keeps the ring lubricated and increases its life.

- Z-ring chains feature the patented Z44 sealing rings, which greatly improve performance and wear life, making previous X-ring and Z-ring chains obsolete
- 50% reduction in friction compared to traditional O-rings
- Constant lubrication from special high-temperature grease in the critical pin/bushing area provides long life
- High-carbon alloy pins to increase shock resistance and stiffness
- Increased roller thickness to prolong durability
- Thicker outer plates and quad-riveting for greater tensile strength
- Original equipment on most Aprilia, BMW, Ducati, KTM, Husqvarna and others
- Ideal for street bikes and superbikes up to 1.300 cc
- Gold color
- See pages 1019-1020 of the 2024 Parts Europe Street catalog for the complete line of Regina ZRP/ZRT Series chains

ZRP

- Specifically designed for application on high-powered bikes, these chains are able to offer exceptional performance thanks to the patented Z-rings
- Assembled with high-alloy steel pins and plates, solid bushings and rollers, shot-peening of plates, pins and rollers
- Pre-stressed for performance enhancing, assuring excellent resistance to mechanical stresses of the latest superbikes

Z-RING SERIES (CONT)

ZRT

- Aimed at tourist road use, these chains ensure high mileage with reduced elongation, thanks to the seal
- Assembled with solid bushings and rollers, shot-peening of plates, pins and rollers to increase the fatigue resistance
- Submitted to performance-enhancing pre-stretching, they are available in several quality levels to ensure the right type of chain for every application

520 HPE CHAIN

- Does not need coated front and rear sprockets
- Eliminates need for periodic lubrication
- Bushings and rollers coated in ta-C (Tetrahedral Amorphous Carbon) for hardness and low coefficient of friction
- For use with only steel sprockets
- Black and gold finish
- See page 1021 of the 2024 Parts Europe Street catalog for the complete line of Regina HPE Series chains

NO. OF LINKS	PART #
130	1224-0250

OROY SERIES CHAIN

- Developed to withstand the severe stresses of off-road riding
- Larger-diameter alloy carbon steel pins and thicker plates offer increased tensile strength and fatigue resistance
- Extended bushings and solid rollers provide improved durability
- Designed especially for smaller bikes up to 85 cc
- Clip type link included
- Gold color
- See page 1022 of the 2024 Parts Europe Street catalog for the complete line of Regina OROY Series chains

D.I.D.

PRO V SERIES O-RING CHAIN

- D.I.D.'s high-performance O-ring chain
- Solid bushings for longest possible wear
- Reinforced rollers for greatest impact resistance
- Recommended for machines originally equipped with O-ring chains
- Originally comes with clip connecting link
- See page 1023 of the 2024 Parts Europe Street catalog for the complete line of D.I.D. Chain Pro V Series O-ring Chains

NO. OF LINKS	PART #
420V	
134	1223-2067

D.I.D.

ZVM-X2 SPECIALTY SERIES CHAIN

- Retains all the low-friction, high-performance characteristics of the standard X-ring while providing 40% greater wear resistance and better overall chain life
- Originally comes with a hollow rivet link
- See page 1023 of the 2024 Parts Europe Street catalog for the complete line of D.I.D. Chain ZVM-X2 Specialty Series Chains

GILLES

AXB CHAIN ADJUSTER AXLE BLOCKS

- Unique, innovative axle block
- Special bolt enables axle adjustment in both directions
- High-precision chain adjustment
- Precise positioning by graded-scale
- By applying the scale, you can compensate serial tolerances
- AXB stays in the swingarm during rear wheel installation
- Braces the axle against compressive - and tensile load
- Easier rear wheel installation
- Fit with the OEM axle nut
- See page 1040 of the 2024 Parts Europe Street catalog for the complete line of Gilles Tooling AXB Chain Adjuster Axle Blocks

REAR WHEEL BEARING AND SEAL KITS

- High-speed bearings are manufactured to ABEC 3 precision levels
- Triple-lip rubber seals keep the grease in and the water and dirt out
- Chevron SRI 2 grease contains rust and oxidation inhibitors (-29 °C to 177 °C (-20 °F to 350 °F))
- Double-lip type TC seals with stainless steel garter springs
- See pages 1042-1046 of the 2024 Parts Europe Street catalog for All Ball's full line of wheel bearing and seal kits

TIRE VALVE TUBELESS - STRAIGHT LONG

- Long, straight tire valve TR413 for tubeless rims on motorbikes, scooters, quads and cars

DESCRIPTION

Black rubber tire valve

PART #

0360-0082

TUBLESS TIRE VALVE - STRAIGHT SHORT

- Short, straight metal tire valve for tubeless rims on motorbikes, scooters and ATVs up to every displacement class
- The total length of the valve is 3,6 cm and the visible length is 2,8 cm (both lengths included cap)
- Due to its compact size, it is compatible with rims as small as 25,4 cm
- Constructed of metal and is highly durable

DESCRIPTION

Tire valve

PART #

0360-0081

TIRE VALVE TR412

- Measures 3,6 cm, with 2,6 cm visible (including the cap)
- Metal finish, making it robust and solid
- Ideal for wheels with a 25,4 cm diameter

DESCRIPTION

TR-412 tire valve (ea.)

PART #

0360-0084

DESCRIPTION

TR-412 tire valve pack (10 pk.)

PART #

0360-0085

0360-0084

TIRE TUBELESS VALVE ANGLED 60°

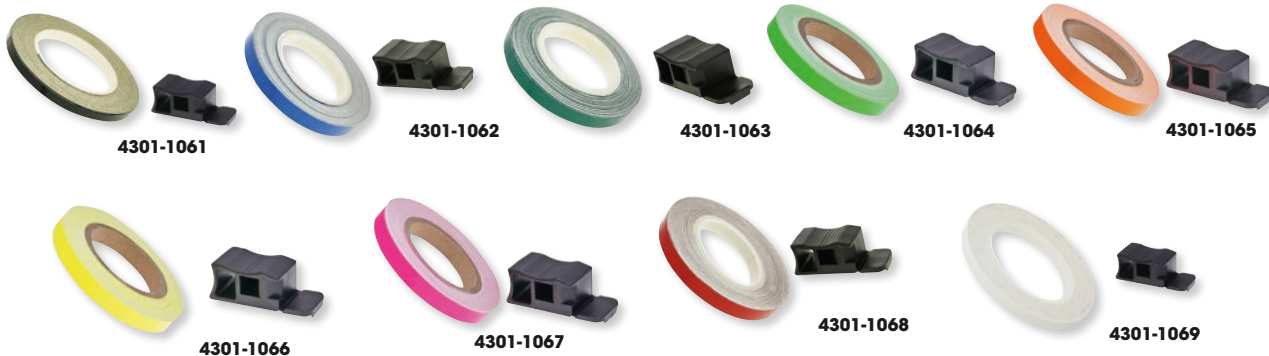

- Tire valve angled at 60° for tubeless rims with 16 mm diameter valve feed-through for scooters and quads or ATVs
- The 60° bend ensures optimum accessibility when inflating or checking tires
- Particularly ideal for smaller wheel diameters

DESCRIPTION

Valve stem, tubeless 60°

PART #

0360-0083

RIM TAPE

- 7 mm wide rim transfers for motorcycle and scooters rims give a great visual boost
- It can also serve as a separation between different colors on bodywork panels or to accentuate specific contours

- Includes one 6 m roll of rim tape
- This is sufficient for two rims up to 18"

COLOR

BRAKE PADS AND SHOES

Organic

ORGANIC/ARAMID BRAKE PADS

- Provide excellent stopping power without noise and rotor galling
- Fingertip control and strong, predictable brake response

TT Sport

"TT" SPORT CARBON BRAKE PADS

- Carbon graphite pads blended with aramid fibers for leisure/sport use
- Low price point
- Lowest heat generation
- Best for fast, dry riding; not for mud, water or sand

Double-H Sintered

DOUBLE-H™ SINTERED METAL BRAKE PADS

- Feature the HH friction rating – the highest in the industry
- Provide maximum brake effect and last twice as long as organic pads

GPFX

GPFX SINTERED ROAD RACE BRAKE PADS

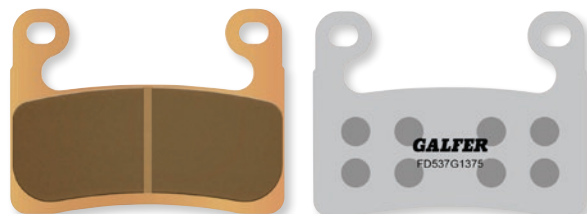

- For racetrack use ONLY
- Provide even higher levels of grip compared to the GPFA pads
- Improved heat cycling – pads can be raced, allowed to cool and be re-used without a loss in brake performance
- New material wears better, causes less rotor/disc wear than previous materials – pads should be good for four or five races of 20 to 25 laps (depending on track lap length)
- For use on race bikes with slick tires and high-performance brake calipers
- Fade-free stopping power with fingertip control

WARNING: GPFX pads are for Race/Track use only; not for street use. These pads are for Race/Track use only. Any other use could result in death or serious injury.

NOTE: See pages 1070-1138 of the 2024 Parts Europe Street catalogue for additional EBC brake pad compounds and applications.

GALFER

ED537G1375

GALFER FRONT BRAKE PADS

HH SINTERED CERAMIC (G1375)

- For moderately aggressive every day and sport street riding
- Ceramic-coated backing plate to assist with temperature management and dissipate heat
- Advanced ceramic composites ready to withstand higher temperatures than regular semi-metallic carbon brake pads
- HH friction-rated compounds deliver excellent feel and modulation
- Capable of handling almost any type of riding you throw at them
- Brake pads do not fade
- Performance street, track days, canyon riding, amateur racing

- See pages 1186-1225 of the 2024 Parts Europe Street catalog for the complete line of Galfer brake pads

BRAKE PADS

DC DUAL CARBON (DC)

- Upgrade pad choice for Superbike, Superstock and Supersport racers in National Championships, as well as track day riders
- High-tech carbon compound developed for racing and standard brake systems used on race and sport bikes
- Low heat transfer rate guards brake system and brake fluid against extreme temperatures
- Smooth initial bite, progressive in-stop performance with excellent brake lever feel and modulation
- DEST technology used for pre-bedding of the brake compound to eliminate fade and secure consistent performance
- NUCAP NRS technology secures the pad material with a mechanical and indestructible bonding of the compound
- For front use ONLY
- See pages 1226-1288 of the 2024 Parts Europe Street catalog for the complete line of SBS brake pads

WARNING: Dual Carbon pads are for Race/Track use ONLY; not for street use. These pads are for race/track use only. Any other use could result in death or serious injury.

DP BRAKES

THE ORIGINAL SINTERED METAL BRAKES

- DP Brakes brake pads are designed with sintered metal compounds to give your bike high-tech performance in all conditions
- Pads have a quick break-in period so you get maximum performance fast
- DP Brakes design and materials ensure consistent hard stops and fade-free performance
- Sintered metal compounds outlast more conventional organic or aramid pads
- See pages 1289-1300 of the 2024 Parts Europe Street catalogue for the complete line of DP Brake Pads

STANDARD SINTERED METAL BRAKE PADS

- GG friction rated and made with DP Brakes' proven sintered metal material
- Gray-colored aluminum oxide-based ceramic material on rear of backing plate keeps heat away from caliper piston and fluid in extreme conditions for fade-free performance
- Pad compound gives equal performance in wet or dry conditions
- Ideal replacement for street and touring machines where durability is the prime requirement
- No brake fade

PRO-LITE MD STANDARD X-SERIES BRAKE ROTORS

- Complete bolt-on and go rotor assemblies
- Made with forged aluminum center hubs, high-friction billet steel rotor rings and sturdy riveted construction
- X-Series rotors offer a universal design for left- or right-side applications; all X-Series feature SD-System™ square-sided buttons that allow the rotor to expand inwards and outwards unrestrained for perfect rotor functionality at any speed or load and increased durability

- Excellent choice when upgrading or replacing OEM brake rotors
- Sold each
- See pages 1386-1419 of the 2024 Parts Europe Street catalogue for additional EBC brake rotor applications

HALO T FIXED AND FLOATING BRAKE DISCS

- Outer ring design ensures equal heat dispersion
- Laser-cut and precision-ground outer ring
- Mud series rotors are designed to ensure equal heat dispersion while keeping brake pad contact surface clear
- T-Floater system provides controlled full floating action under the most severe racing conditions

- Pin-slot construction allows high mechanical load while exhibiting minimum wear
- Fixed discs use durable stainless steel construction
- Floater discs made of lightweight, precisely designed aluminum
- See pages 1351-1352 of the 2024 Parts Europe Street catalog for the complete line of Moto-Master Halo-T brake discs

CUBIQ® BRAKE ROTORS

- Named after the crystal steel molecules, the Cubiq® brake rotor combines state-of-the-art technology with modern design
- Rotor shape promotes uniform brake pad wear - the same contact surface between the pad and disc; every revolution generates regular wear
- Less unsprung weight (up to 40% lighter than standard round rotors) reduces gyroscopic effect and improves the maneuverability of the motorcycle
- Increased perimeter surface design generates more cooling surface around the rotor for better temperature dissipation
- Sold each
- See pages 1381-1382 of the 2024 Parts Europe Street catalog for the complete line of Galfer Cubiq brake rotors

WAVE® ROTORS

- Laser-cut double-disc ground 420 high carbon stainless steel
- Direct-replacement brake rotors; do not require any extra parts, bolt on just like a stock brake disc
- Full-floating design rotors have an aluminum center carrier
- Improves brake lever feel and modulation
- Rotors cool as they rotate to lower brake operating temperatures
- Design is self-cleaning, removes water as it rotates
- Less tendency to warp

- Manufactured in Spain
- Sold each

• Available to fit a wide variety of motorcycle models, see pages 1382 to 1384 of the 2024 Parts Europe Street catalog, pages 895 to 908 of the 2024 Parts Europe Offroad catalog and also partseurope.eu for the latest applications

ROUND ROTORS

- Classic look and has more braking power than the original disc
- Low working temperature and less tendency to warp
- Excellent resistance to corrosion
- Stainless steel high carbon content
- Floating discs are made from anodized or chromed high-resistance aluminum (7075 T6-6082) or stainless steel (AISI 420) carrier

BYO® BUILD-YOUR-OWN DOT BRAKE LINE BASIC BUILDER METRIC KIT

- Design meets all FMVSS-106 standards once assembled per the included instructions, for safe and reliable on-road use (see compatibility note below)
- Available in a stainless finish
- Basic Builder Metric Kit contains 10 mm banjos, fittings and a mini manifold to build multiple brake lines
- Organized in a labeled, compartmental carrying case and includes 5,6 m (25') of non-yellowing clear-coated braided stainless steel hose, chrome-plated banjos, polished stainless hardware, copper crush washers plus a set of durable Aluminum BYO® Vise Jaws
- Brake hose and fittings are compliance labeled, pressure tested and 100% inspected
- NOT for use with Anti-lock Brake Systems

NOTE: BYO® brand brake hose and components have been specifically designed to work ONLY in conjunction with each other. Use with any other Magnum brake line products or other manufacturer's brands will void any warranty, performance, liability and DOT FMVSS-106 compliance claims.

NOTE: All BYO® brand brake lines are intended for non-ABS applications ONLY.

FORK BUSHING KITS

- Maintenance free bushings that combine the robustness of steel with the low friction of a PTFE-based self-lubricating sliding layer
- Composite fork bushing eliminates the need for regular maintenance while still ensuring consistent performance
- Thin bronze layer forms a robust bond between the backing and sliding surfaces to enhance heat dissipation
- Steel body ensures strength and is copper plated to safeguard against corrosion
- PTFE-based sliding surface minimizes friction and provides a low-wear performance
- Widely adopted in premium motorcycle applications globally

- See pages 1469-1470 of the 2024 Parts Europe Street catalog for the complete line of Pivot Works fork seal kits

FORK SEALS AND DUST SEALS

- Seal profile is engineered to create equal pressure in each seal lip; equalized seal pressure creates less drag and longer seal life
- MAX-LIFE has a coefficient of friction up to three times less than the OEM seal material
- Triple-lip seal design
- Directional ribs allow seal to be installed easily

HYPERSPORT STEERING DAMPERS

- Unique, well proven design
- Pressurized fluid avoids problem of free play
- Adjustable in 16 well defined clicks
- Available in 6 different lengths/strokes

- Mounted outside of the fork leg or across the frame behind the triple clamp
- Universal parts for race bikes available

BLACKLINE STEERING DAMPERS

- Unique, sleek-black well proven design
- Pressurized fluid avoids problem of free play
- Improved riding experience
- Adjustable in 16 well-defined clicks
- Mounted outside of the fork leg or across the frame behind the triple clamp

- Fully serviceable
- For universal dampers, see below
- Require steering damper mounting brackets for installation (sold separately)

STEERING DAMPERS

CSC STEERING DAMPERS

- Linear-damping steering damper with 24 clicks to make a fine-tuning possible
- Gives the rider comfort in riding and the assurance of not getting knocked off by the quick steering movements of the bike
- Fully adjustable; damping can be adjusted in 22 positions
- Fully reconstructable with spare parts availability
- Twin-tube clamp ensures that the clamping force of the tube-clamp does not obstruct the piston
- Low-friction design due to 8 mm piston rod with special surface treatment
- One-piece piston rod
- Triple-function seals
- Dust scraper and double oil seal, ensuring that dust cannot enter and oil cannot exit
- Nitrogen-pressurized heat expansion reservoir
- Gas pressure prevents the formation of air bubbles

RSC STEERING DAMPERS

- Superior to other steering dampers
- Behaves like a linear steering damper when driving normally and has all the functionalities of the CSC steering damper
- RSC dampers will react in a direct way with a lot of extra progressive damping
- Damping can be adjusted in 22 positions
- Fully reconstructable with spare parts availability
- Twin-tube clamp ensures that the clamping force of the tube-clamp does not obstruct the piston
- Low-friction design due to 8 mm piston rod with special surface treatment
- One-piece piston rod
- Triple-function seals
- Dust scraper and double oil seal, ensuring that dust cannot enter and oil cannot exit
- Nitrogen-pressurized heat expansion reservoir
- See page 1484 of the 2024 Parts Europe Street catalog for additional Hyperpro steering dampers

See chart for details

STEERING DAMPER MOUNTING KITS

- CNC-machined
- Made of lightweight aluminum
- Not ABE approved unless noted (see chart)
- Steering damper sold separately; must order both for a complete assembly
- See pages 1485-1486 of the 2024 parts Europe Street catalog for additional Hyperpro steering damper mounting kits

SHOCK ABSORBERS - TYPES & ADJUSTMENTS

Start with finding out which shock absorber fits your bike. Then, identify which type of shock absorber it is and which adjustment features it has according to the table below.

SHOCK ABSORBER TYPE

S, T

Single or twin-tube design.

30, 36, 39, 44, 46 AND 50 MM

Piston diameter.

E

Emulsion type of shock absorber.

D

Monotube high-pressure gas type of shock absorber with internal reservoir in the main body.

P

Monotube high-pressure gas type of shock absorber with external "piggyback" reservoir.

H

Monotube high-pressure gas type of shock absorber with hose-mounted external reservoir.

Q1

Progressive damping shock absorber with two pistons.

W

Shock absorber delivered without spring.

ADJUSTMENT FEATURES

C1

Adjustable compression damping.
Adjuster wheel or slot on the reservoir.

C2

Adjustable high- and low-speed compression damping.
Hexagon or slot on the reservoir.

C4

Electronically Controlled (EC) compression damping adjuster.

R1

Adjustable rebound damping. Adjuster wheel or slot above the end eye.

R1

Adjustable rebound damping. Adjuster wheel or slot on the reservoir.

R4

Electronically Controlled (EC) rebound damping adjuster.

S

Hose-mounted hydraulic spring preload adjuster.

S1

Electronically Controlled (EC) hydraulic spring preload adjuster.

B

Integrated hydraulic spring preload adjuster.
Adjuster wheel or hexagon on the adjuster.

L

Adjustable length.
Mechanical spring preload adjuster.

SHOCKS

- Wet born piston rod with self-adjusting bearing
- Radial piston with straight flow and pre-load through a pre-combustion oil chamber guarantees an optimum response
- Made from 7075-T6 Aircraft Aluminum
- Anti-Block-System; a separate pressure valve prevents a hydraulic lock of the shock
- Anti-Fading Damping System; because of the aluminum piston and the steel tube there is no fading in the damping system when the temperature of the oil increases
- Rebound/compression adjuster; 50/30 clicks (compression adjustment only for fully-adjustable shocks)
- Threaded Spring Preload Adjuster
- The modular system creates the possibility to replace every part
- Shock spring comes in black unless noted in chart
- ABE approved (see chart for details)
- See page 1487 of the 2024 Parts Europe Street catalogue for additional Hyperpro shock applications

REAR SHOCK SPRINGS

- Progressive rear spring is designed to smoothly transfer engine power to the road while controlling your bike, ensuring more stability and will significantly reduce tire wear
- Shorter braking distance
- Better balance in the bike, more comfortable riding, even with passenger
- Easy cornering
- More grip in dry and wet weather

- More confidence, it makes you feel more comfortable and/or faster
- Overall sense of confidence in the bike
- Available in black
- See page 1505 of the 2024 Parts Europe Street catalogue for additional Hyperpro rear shock springs

¹ ABE approved.² Raises rear ride height +25 mm.

FRONT/REAR LOWERING KITS

- Front lowering kit substitutes shorter fork springs for the stock length springs
- Spring rate is designed to perform better than the original
- Rear kit is either shorter springs, or a suspension linkage and all necessary hardware for installation
- Suspension linkage is made of lightweight CNC-machined aluminum

- Rear springs have a black finish (unless noted in chart)
- See page 1510 of the 2024 Parts Europe Street catalog for additional Hyperpro lowering kits

GASKET SETS

- Superior quality gasket sets from Athena S.p.A
- Head gaskets feature rubber-coated spring steel construction
- Soft steel base gaskets are rubber coated
- Steel core materials feature high spring-back and superior tensile strength
- Revolutionary transparent coating guarantees a perfect seal even at extremely high temperatures
- High-temperature blue silicone beading on most critical flat gaskets
- Top-end gasket kits include all necessary gaskets to rebuild the top end of the motor from the base gasket up, including all rubber gaskets such as valve cover gaskets, O-rings and valve stem seal

- Complete gasket kits include all necessary gaskets to rebuild the top and lower part of motor, including all rubber gaskets and O-rings, top and bottom
- See page 1516 to 1517 of the 2024 Parts Europe Street catalog for the complete line of Athena Gasket Sets

HIGH-PERFORMANCE GASKET AND GASKET KIT FOR SUZUKI

- Gaskets and gasket sets used by professionals in high-performance machines and as OE replacements worldwide
- Materials may vary depending on what is correct and engineered for specified application
- Each PART # contains the proper amount of gaskets for one application
- See pages 1518-1545 of the 2024 Parts Europe Street catalog for the complete like of Cometic Gaskets

HEAD GASKETS

- Quality materials developed for maximum performance tolerances and longevity; available in several thicknesses and materials
- MLS (Multi-Layer Steel) head gaskets promote an even torque load across the gasket sealing surface utilizing LCE (Load Control Embossments), providing less bore distortion and better piston ring seal for more power
- Outer layers are embossed and coated on both sides with Viton® to meet the demands of a variety of harsh sealing environments, load conditions, and surface finishes
- Center or shim layer is uncoated stainless steel, which can be varied to accommodate multiple thickness requirements
- Sold each

All Rekluse clutch products are precision-engineered and made of high-quality materials to provide the best in performance and durability. Their components are stronger, lighter, longer-lasting and built for maximum performance. Rekluse's industry-leading auto clutches are optimized for each bike model as it comes from the factory and they've designed each clutch to be fine-tuned for every rider. Rekluse's manual clutches deliver unprecedented performance, tuning and durability with a design that provides more discs in less space, allowing up to four additional friction discs over stock.

RADIUSX 4.0 CLUTCH KIT
FOR HONDA CB750 HORNET/
XL750 TRANSALP 23-24

- Eliminates stalling; start and stop without engaging the clutch lever
- Increased power transfer over OEM
- On-the-fly external adjustment
- Allows riders to run a gear taller, letting the suspension work better and saving energy
- TorqDrive® clutch pack provides longer clutch life with less adjustment over time
- Retains full, normal use of the clutch lever to fully override the auto functionality at any time
- Improves rider control, maximizes traction and confidence to navigate challenging terrain
- Adjustable slave cylinder for models with hydraulic clutch
- Basket sleeves protect OEM baskets from notching

DESCRIPTION	PART #
RadiusX 4.0 clutch kit	1130-0882

RADIUSX CLUTCH KITS

- With RadiusX a high-performance auto clutch is just a clutch pack swap away
- RadiusX combines TorqDrive® friction disc technology with Rekluse's innovative EXP (auto clutch) disc
- TorqDrive provides more clutch discs in less space, delivering high-performance auto function within the framework of the stock clutch
- The RadiusX clutch prevents engine stalls so you can focus on the ride and let the auto clutch do the rest
- RadiusX delivers increased power transfer over OEM and longer clutch life with less adjustment over time
- Standard clutch lever function is retained and full override
- Some configurations include Rekluse basket sleeves to prolong basket life
- See page 1578 of the 2024 Parts Europe Street catalog for more Rekluse RadiusX clutch kits

TORQDRIVE® CLUTCH PACK

- A high-performance manual clutch is now more accessible than ever with the TorqDrive® Clutch Pack
- It's as easy as changing your clutch plates into your OEM components
- Proven at the highest levels of racing, TorqDrive thin friction disk technology allows more disks to fit in your OEM clutch's footprint, decreasing slip and unlocking the full power of your engine
- TorqDrive technology also provides increased clutch life and decreased clutch fade
- The additional friction disks provide an average of a 25% gain in torque capacity over stock, while reducing lever pull by an average of 10% (figures vary by model)

FITS MODEL

KAWASAKI

Ninja 650 06-16, Versys 650 07-24, Vulcan S 650 15-25

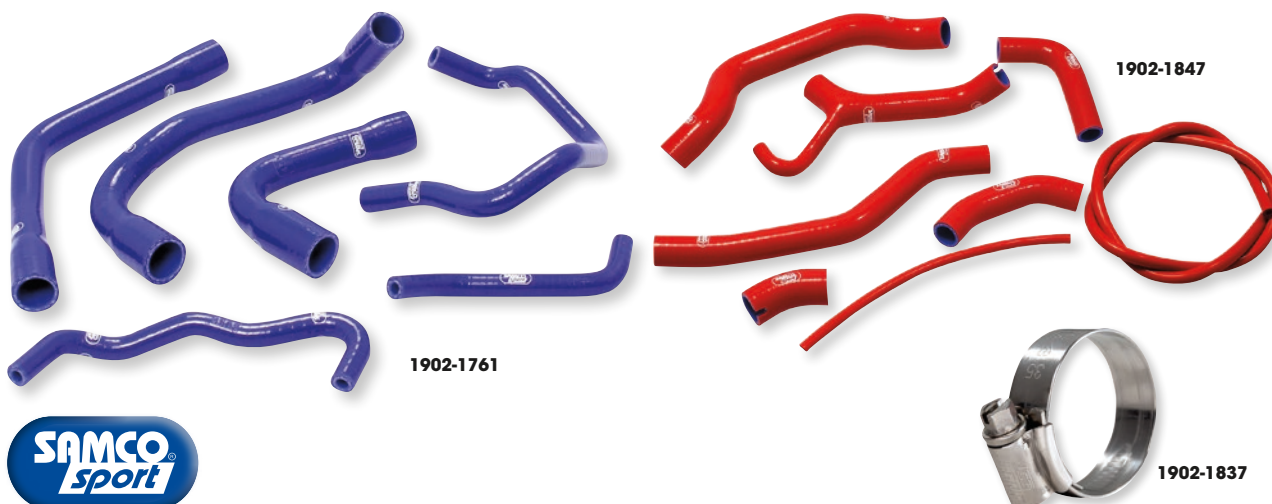

PART

1130-0394

- TorqDrive delivers stronger drive throughout the powerband, unlocking the bike's power without any expensive motor mods
- Rekluse basket sleeves eliminate basket wear and notching
- See page 1579 of the 2024 Parts Europe Street catalog for more Rekluse TorqDrive clutch packs

NOTE: Not a replacement clutch pack for RadiusX, RadiusCX, or Core Manual TorqDrive®.

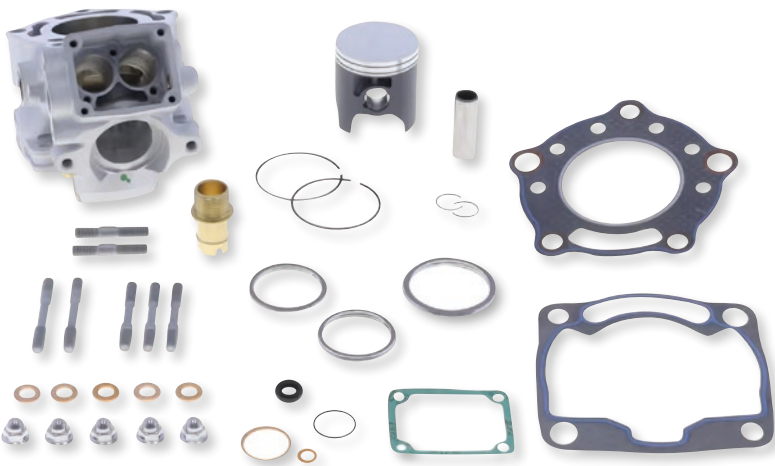

RADIATOR HOSE KITS AND CLAMP KITS

- High-performance silicone radiator hose kits
- Feature improved shape and thermal properties for better cooling – up to 5 °C cooler
- Color-matched to manufacturer's production colors
- Silicone and reinforced fabrics to last longer than stock
- High-performance clamp kits (sold separately) feature marine-grade 18/8 stainless steel clamps with rounded edges, smooth inners and polished surfaces; contain all clamps necessary to complete installation of radiator hose kit
- Color-matched vacuum tubing also available (sold separately)
- See page 1657 of the 2024 Parts Europe Street catalog for the complete line of Samco Sport Radiator Hose Kits and Clamp Kits

CYLINDER KITS

- Kits include aluminum cylinder with nickel-carbide coating designed with larger water jackets
- Forged piston black graphite or clear tin coating; includes rings, clips and pin
- Athena top-end gasket set includes required seals and hardware
- Easy-to-follow step-by-step installation instructions
- Most are bolt-on; no machining required except where noted
- See page 1672 of the 2024 Parts Europe Street catalog for the complete line of Athena Cylinder Kits

POWER VISION TOKEN

- With this token for your Dynojet Power Vision, you can tune an additional vehicle on the same device
- This is perfect for dealers, as well as enthusiasts and families who have multiple vehicles to maintain
- Works with all Power Vision, Power Vision 3 and Power Vision 4
- Can be used on one vehicle an unlimited number of times, but not on multiple vehicles

DESCRIPTION	PART #	DESCRIPTION	PART #
Single token	1020-4230	10 pk.	1020-4231

POWER COMMANDER 6 FOR HONDA CMX1100 REBEL/DCT 21-24

- Compact design for discrete placement and easy uninstallation to revert to stock settings
- Easily change and upgrade tunes as you upgrade parts
- Comes with Power Core software that connects dyno runs with our EFI Tuning Devices to unlock your ride's potential
- Pair with other Power Commander accessories like the Autotune, Quickshifter or POD-300

DESCRIPTION	PART #
Power Commander 6	1020-4220

- Analog input allows you to install any 0 to 5V sensor and build an adjustment table based on its input such as boost or temperature
- Easily connects to your computer via USB
- Each cylinder can be mapped individually and for each gear, giving riders more granular control
- See pages 1676-1677 of the 2024 Parts Europe Street catalog for the complete line of Dynojet Power Commander 6

1020-4148

POWER VISION 3

- Flash performance tunes via OEM diagnostic connector, no need to remove and send out ECU
- Display vehicle data channels in real time
- Weather-resistant for use in all conditions
- High-contrast display, viewable in direct sunlight
- Fueling revised for maximum power and torque
- Spark timing optimized for 91-93 octane fuel

STANDARD AIR FILTERS

FOR HONDA CRF300L 21-24

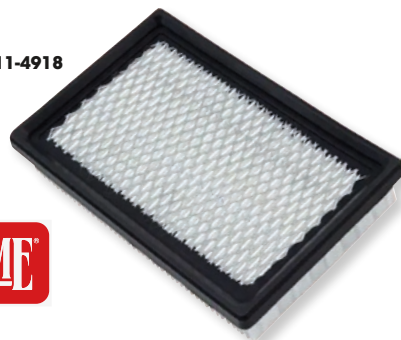

- Twin Air dual-stage filters are the choice of top factory teams and riders worldwide
- Dual-bonded foam design filters out even the smallest dirt particles, while allowing more airflow than two separate layer filters (flow bench proven)
- Flat foam sealing ring provides a secure seat against the airbox, even in the worst riding conditions
- Twin Air filters are slightly smaller than stock, making them easier to change while increasing dead air space around the filter for better performance
- Available with and without cage

DESCRIPTION	STANDARD	STANDARD W/ CAGE	PRE-OILED
Air filters	1011-4897	1011-4899	1011-4898

FACTORY PRE-OILED AIR FILTERS

- The same factory treatment that race teams and OEMs receive is now available for all Twin Air users
- Filters are pre-oiled with Twin Air BIO Foam Filter Oil using our state-of-the-art filter oiling machines to provide the ultimate consistency in pore coverage
- Same industry-leading Twin Air Filter you are used to, now pre-oiled for your convenience
- Comes in a new, resealable bag for added convenience
- See page 1717 of the 2024 Parts Europe Street catalog for the complete line of Twin Air air filters

RAM MOUNTING SYSTEMS

- Offer the most complete selection of mounting solutions designed specifically for motorcycles, ATV/UTVs, snowmobiles and personal watercraft
- RAM®'s rubber ball and socket design is ideally suited for these high-vibration applications
- In addition, the ball and socket design allows the user to adjust their mounted device to the perfect viewing angle quickly and easily
- RAM will give you the ability to help you mount your cell phone, GoPro® camera, GPS device and much more

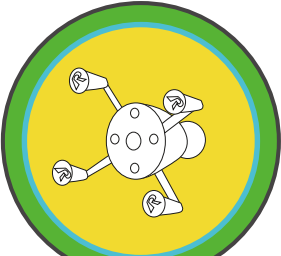

THREE STEPS TO CONFIGURING YOUR MOUNT:

STEP 1: PICK A BASE

STEP 2: PICK AN ARM

STEP 3: PICK A CRADLE

RAM® QUICK-GRIP™ XL PHONE MOUNT WITH VIBE-SAFE™ AND U-BOLT BASE

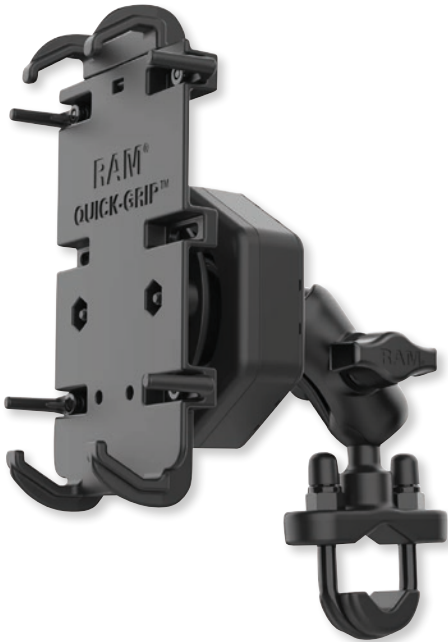

- Combination of the Ram® Quick-Grip™ XL phone mount and the RAM® Vibe-Safe™ in a short version
- Made of high-strength composite and stainless steel hardware
- Damping accessory designed to protect electronic devices from a wide range of vibration
- NPT thread connection allows for rotation between portrait and landscape
- Versatility to rotate between portrait and landscape while keeping your device secure
- One handed docking device
- Adjustable side supports and spring loaded top grip to keep device secure
- Accommodates rails from 12,7 mm (0,50") to 31,75 mm (1,25") in diameter
- Compatible with handheld devices that will fit the following dimensions: 6,6 cm to 9,2 cm W (2,625" to 3,625"), 14,6 cm to 20,9 cm H (5,75" to 8,25"), and a depth of 18,28 mm (0,72")

DESCRIPTION

Quick-Grip™ XL phone mount with RAM® Vibe-Safe™ and U-Bolt Base

PART #

0636-0438

RAM® QUICK-GRIP™ XL PHONE HOLDER WITH VIBE-SAFE™ ADAPTER AND BALL

- RAM® Vibe-Safe™ dampens a wide range of vibration frequencies
- NPT thread connection allows for rotation between portrait and landscape while remaining secure
- Made of high-strength composite and stainless steel hardware for durability and reliability in the most demanding environments
- Unique structure and thoughtfully designed with all industries in mind
- Includes B-size 25,4 mm (1") RAM Mounts rubber balls allow for connection to any B size RAM Mounts double socket arm; ball and socket technology allows for near-infinite adjustability
- Holder dimensions: 14,6 cm to 18,4 cm (5,75" to 7,25") H x 6,6 cm to 9,2 cm (2,625" to 3,625") W x 18,29 mm (0,72") D

DESCRIPTION

Quick-Grip™ XL phone holder with ball

PART #

0603-1130

RAM® X-GRIP® PHONE MOUNTS WITH VIBE-SAFE™ AND RESERVOIR BASE

- Vibration damping accessory to protect electronic devices from a wide range of vibration frequencies
- Can rotate between portrait and landscape by loosening the center screw
- Comes with one medium B size arm and one RAM® Motorcycle Brake/Clutch Reservoir & Handlebar Ball Base
- Accommodates rails from 12,7 mm to 31,75 mm (0,5" to 1,25") in diameter
- Compatible with handheld devices that fit a width range of 47,4 mm to 82,55 mm (1,87" to 3,25") and a depth range of 22 mm (0,875") max
- Optional device tether recommended for outdoor applications
- Holder dimensions on PART #0603-1128; width 44,5 mm to 114,3 mm (1,75" to 4,5") and a depth range of 22,2 mm (0,875") max

DESCRIPTION	PART #
X-Grip® mount kit for large device	0603-1128

- Holder dimensions on PART #0603-1129; width 47,6 mm to 82,55 mm (1,875" to 3,25") and a depth range of 22,2 mm (0,875") max

DESCRIPTION	PART #
X-Grip mount kit	0603-1129

RAM® X-GRIP® KITS WITH VIBE-SAFE™ AND U-BOLT BASE

- High-strength composite and stainless steel construction with a powdercoated marine-grade aluminum
- Include a 25,4 mm (1") diameter rubber ball and socket system with adjustment points at both ends of the socket arm; this, with a twist of the arm knob, allows you to move the X-Grip® mount to optimum viewing position
- Spring-loaded holder expands and contracts for perfect fit of device
- Rubber-coated tips will hold device firm and stable
- The mounting hardware for brake/clutch reservoirs include both standard and metric mounting bolts
- Kits include U-bolts that fit bars 12,7 mm to 31,7 mm (5,5" to 1,25") in diameter

DESCRIPTION	PART #
Short arm length 50,8 mm (2"); width range: 44 mm to 114 mm (1 3/4" to 4 1/2"); depth range: 22 mm (7/8")	0603-1124
Short arm length 50,8 mm (2"); width range: 47 mm to 82 mm (1 7/8" to 3 1/4"); depth range: 22 mm (7/8") max	0603-1125

- Socket technology allows for multiple adjustment angles and articulation of device
- Include all necessary mounting hardware

DESCRIPTION	PART #
Medium arm length 76,2 (3"); width range: 44 mm to 114 mm (1 3/4" to 4 1/2"); depth range: 22 mm (7/8") max	0603-1126
Medium arm length 76,2 (3"); width range: 47 mm to 85 mm (1 7/8" to 3 1/4"); depth range: 22 mm (7/8")	0603-1127

RAM® X-GRIP® PHONE MOUNTING KITS

- High-strength composite and stainless steel construction and powdercoated marine-grade aluminum
- Made of high-strength composite and stainless steel hardware for durability and reliability in the most demanding environments
- A combination of the RAM® X-Grip® phone mount with motorcycle fork stem base and the RAM Vibe-Safe™
- RAM Vibe-Safe dampens a wide range of vibration frequencies
- Comes with one (1) short B-size arm and one (1) RAM motorcycle fork stem ball base and an optional device tether that is recommended for outdoor applications
- The spring-loaded holder expands and contracts for a perfect fit of the device, while the rubber-coated tips hold it firm and stable
- Includes all necessary mounting hardware

Handlebar rail mount with U-bolt base, Level Cup™ drink holder	0636-0129

REMOVABLE GPS MOUNT FOR CFMOTO 800MT 21-24

- Cockpit mount
- Gives the best possible view of both the dashboard and GPS
- Holder pivots and can be removed in an instant
- Universal drill-hole pattern fits many current GPS devices and SW-Motech smartphone hard cases
- Integrated shock absorption material protects device against vibrations
- Steel construction with black powdercoated finish
- See page 1752 of the 2024 Parts Europe Street catalog for the complete line of SW-Motech GPS mounts

DESCRIPTION	PART #
Cockpit GPS mount	0636-0665

KLOCK WERKS DEVICE MOUNT IOCORE™ MAGNET

- The strong iOCore™ magnet used with Klock Werks iOmount® systems have ultra-strong 5,4 kg (12 lbs) magnetic interface
- See pages 1758-1759 of the 2024 Parts Europe Street catalogue for the complete line of Klock Werks device mounts

NOTE: Not for use with phones that have inductive charging.

NOTE: Not for use with Samsung Galaxy S4 phones.

DAYTONA

QUICK CHARGE PORT USB TYPE-A

- ABS housing
- For 22,2 mm and 25,4 mm (7/8" and 1") handlebars
- Powers on with ignition key
- Overcurrent protection
- Short-circuit protection
- QC3,0 (Quick charge 3,0)
- Input 12,5VDC
- Output 5V/3A, 9V/3A, 12V/2,5A

2-PORT USB ACCESSORY SOCKET

- Includes two 2.1A USB power plugs
- For use with charging GPS, phones and other smart devices
- Plug N' Go wire harness with universal splice connections to wire into any 12V system

IO MOUNT® ESSENTIALS COLLECTION

- Includes a diverse array of Klock Werks iOmount® products for use with various devices and surfaces
- Universal magnetic phone mount
- Suitable for various environments, whether at home, in the office or on the go
- Each magnetic mount is crafted for easy use and optimal performance
- Essentials kit includes: iOmini™ stand, iOtraveler, iOpop, iOkwik, Nomad™, tether, 2 pack disc and prep swabs

DESCRIPTION	PART #
Universal iOmount®	0636-0627

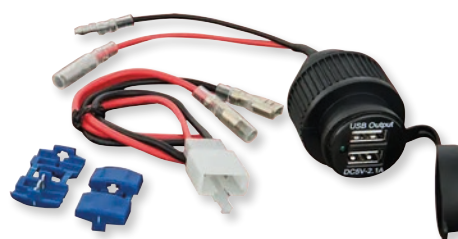

HANDLEBAR MOUNT USB-C ADAPTOR

- Charge your USB-C devices on the move
- Indicator light flashes while charging
- Integrated rubber charging port cover prevents damage from dirt and dust
- 22,2 mm and 25,4 mm handlebar clamps included
- Dimensions: 51,2 mm L x 11,5 mm W (2" x 7/16")

DESCRIPTION	PART #
Handlebar mount USB-C adaptor	2120-1263

DESCRIPTION	PART #
Quick charge port USB Type-A	2130-0375

ECE TYPE APPROVED

This logo symbolizes that the article conforms to applicable UN ECE regulations. Type approved means that a product meets a minimum set of regulatory, technical and safety requirements.

ECE R90 TYPE APPROVED

This logo symbolizes that the article conforms to applicable UN ECE R90 regulations. Type approved means that a product meets a minimum set of regulatory, technical and safety requirements.

PPE (Personal Protective Equipment)

This logo indicates the article's conformity with the Essential Health and Safety Requirements of Regulation (EU) 2016/425.

EC TYPE APPROVED

This logo symbolizes that the article conforms to applicable EU EC directives. Type approved means that a product meets a minimum set of regulatory, technical and safety requirements.

EU TYPE APPROVED

This logo symbolizes that the article conforms to applicable EU Regulation (generally for newer products). Type approved means that a product meets a minimum set of regulatory, technical and safety requirements.

PPE

This logo indicates the article's conformity with the Essential Health and Safety Requirements of Regulation (EU) 2016/425. (non-motorcycle articles, e.g. Watercraft articles).

ECE R22.06

This logo symbolizes that a helmet, helmet visor/shield or other helmet accessory has been tested and certified to ECE 22.06 regulation.

ART

The ART quality mark symbolizes that the lock is independently tested according to the standard for two-wheeler theft prevention. (MBT-04) and certified by the ART Foundation. The locks are rated according to a 5 stars category designation system based on the use of a lock (bicycle, E-bike, scooter, motorcycle, other). The more stars a lock has, the higher its preventative value and the better it protects against theft.

ABE

This logo symbolizes the article has been approved by KBA (German Federal Motor Transport Authority) for specific vehicle application.

TEILEGUTACHTEN (German Parts Certificate)

This logo symbolizes that the article contains a TEILEGUTACHTEN (German Parts Certificate) to ensure the legal part installation. Issued by a German inspection body.

CLASSE S.R.A.

The logo symbolizes that the anti-theft device is tested and approved according to the SRA (SÉCURITÉ et RÉPARATION AUTOMOBILES France) rules for theft prevention. The classification in the "SRA classes" includes electronic protection systems (engine cut-off, alarm, etc.) and mechanical protection systems (U-locks, chains and disc locks).

SOLD SECURE

The logo symbolizes that the lock is tested and approved according to Sold Secure (UK's testing and certification house for security products) standards for theft prevention.

ELECTRICAL WIRING

WIRE GAUGE CONVERTER

GAUGE	MM ²	MM Ø	GAUGE	MM ²	MM Ø
22	0,33	0,65	10	5,0	2,6
20	0,5	0,8	8	8,0	3,3
18	0,8	1,0	6	13,0	4,1
16	1,0	1,3	4	19,0	5,2
14	2,0	1,7	2	32,0	6,5
12	3,0	2,1	0	52,0	8,3

WIRE GAUGE SELECTOR

It's important to match up wire diameter and current properly. To choose the right gauge wire, you will need to know how much Wattage (or Amperage) you will draw and what the length of the cable will be.

NOTE: The chart below is based on a 12V system. To find the appropriate wire for 6V systems, the Amp and Watt numbers should be divided in half.

AMP	WATT	91 CM (3 FT)	152 CM (5 FT)	213 CM (7 FT)	305 CM (10 FT)	457 CM (15 FT)
5A	30W	18 AWG	18 AWG	18 AWG	18 AWG	18 AWG
6A	36W	18 AWG	18 AWG	18 AWG	18 AWG	18 AWG
